## BOND ISSUE TO BUILD ROADS IS UP TO THE PEOPLE

The People Will Have to Drop Some of Their Selfishness and be Broader in Their Spirit and Actions if They Want to Prosper and Progress.

If the people of Lawrence county wait for a proposition to build roads that will exactly suit everybody they will be waiting in their graves a thousand years from now.

The NEWS does not know who drafted the petition under which the vote on bonds is to be taken Dec. 20th, but we know that it would be impossible to present any plan to which no objection can be found. Some men no doubt will say they could offer something better, but in such cases the chief difference would be in the fact that a route would be changed so as to pass alongside their place. So it is impossible to please everybody.

If the people could bring themselves to the point of laying aside enough selfishness to be willing to help get the good roads enterprise started, it will be extended to all parts of the county in a few years. The experience everywhere is that when a county once gets some good roads the people will find a way to complete the system. The roads pay for themselves, but it is difficult to get people to accept this statement who have never personally known the advantages of good roads.

### May Lose Federal Aid.

Kentucky's share of the Federal Aid appropriation made by Congress is so nearly exhausted that unless Lawrence county votes a bond issue right away we will have no chance to get in on this money, which would constitute the largest percentage of aid possible to receive on the road passing through the county from Boyd to Johnson. If the people vote down the present proposition they can say good-bye to all chances for Federal aid so far as can be seen now.

### No River Bridge Needed.

One of our correspondents says a man who is opposing the bond issue claims it would be necessary under the proposition of Dec. 20th to build a bridge across the river at Louisa at a cost of \$100,000. Such statement is ridiculous. There are already two bridges available for the route to the county seat of Martin. One is a toll bridge at Louisa and the other is a free bridge two miles and a half miles above Louisa. The latter belongs to the county and is in direct line to Inez.

### Cost of Roads.

Another statement this correspondent inquires about is that hard roads will cost \$37,000 per mile. It would not only be unnecessary, but most unwise to build roads that would cost that amount. It can be done if they are made wide enough and the most expensive material is used, but nobody who is in favor of good roads in Lawrence county believes that such a policy should be followed.

We are reliably informed that a Lawrence county engineer employed by the State to build roads in the mountains of southeastern Kentucky recently stated that hard roads can be built in Lawrence county at a cost of \$12,000 per mile and that these roads will meet the requirements of the State Roads department.

The sad fact is evident that a lot of men in this county will vote against any road proposition unless they receive a guarantee that the road will be built in front of their door. Such extreme selfishness as this is the thing that will keep us buried in the mud and prevent all progress and enterprise that can possibly be kept out of our county.

Many of our best citizens are moving away from Lawrence county to places that already have good roads. They would prefer to remain with the people they know, but have lost hope of improvement.

## Senator Lodge Shows What Actuates Him

New York.—The Rev. Dr. D. D. Irvine, commissioner of the Society for American and British Friendship, charged that Senator Lodge had refused to listen to him unless he had something to say against President Wilson or the League of Nations. Dr. Irvine quoted Senator Lodge as saying in the presence of himself and three other members of the society:

"Doctor, if you have anything to say against the President or against the League of Nations, we want to hear you. But if you have anything to say for the President or for the League of Nations we haven't time to listen to you."

"I solemnly swear as a Christian gentleman that he made this statement about the President and League of Nations."

Dr. Irvine said that, in revealing Senator Lodge's remarks, he was breaking the confidence imposed by a private interview. That interview, he said, took place August 31, when he and his associates went to protest against appearance of Sinn Fein leaders before the Senate Foreign Relations Committee.

### SOLD A FARM.

Dr. Proctor Sparks, of Louisa, has sold a farm on Upper Blaine to C. K. Dobyns, a citizen of that neighborhood.

**TOO MUCH RAIN.**  
The excessive rains of the last two months have wrought great damage to the farmers of this part of the country. In addition to rotting the corn and potatoes there have been many heavy losses from high creeks and a big stage in the river. Much corn was swept away by the high water. The Blaine valley suffered greatly in this way, many farmers losing practically all of their corn.

The rains of this week have brought the river to a high stage again.

**ACTIVE AT 81 YEARS.**  
Mr. John Fannin, of Hubbardstown, W. Va., was in the NEWS office Tuesday to renew his subscription. He has been a subscriber almost ever since the paper was started 34 years ago. He is 81 years old and is very active. He cultivated four acres of land this season alone, besides milking his cows and doing the chores about home. He says Sunday is his hardest day, because he can not work. If everybody had the work habit like he has it, the high cost of loafing would not be troubling the country today.

## OIL DRILLING IN 34 COUNTIES

### Kentucky Comes To The Front as a Great Oil Producer.

Barbourville, Ky.—Nearly every section of Kentucky is represented in the petroleum prospecting now underway, apart from the 14 counties in which commercial pools have been developed, and markets established, 34 counties being centers of advance activity.

At the beginning of the month approximately 900 drilling rigs were in operation in all districts. Winter will probably bring a lessening of activity, but the prevailing prices of crude oil will keep field operations going as live as possible.

East of the Lee-Estill-Powell fields and extending through to the West Virginia border many counties are being tried out. Magoffin county has eight to ten tests under way. The Southwestern Petroleum Co., one of the leading producers in Lee, has moved three rigs into Magoffin this month. The northeastern section of the county will be tested. The Universal Oil Co. in a late test on the Blanton lease, got a good showing at 1,700 feet.

In the Big Sandy territory the counties of Floyd and Knott contain about a dozen new tests, while Johnson county shows an equal number of wells drilling. Deep oil is the objective of all operators in that section.

In Western Kentucky many new wells have been drilled in the Allen-Warren district. In Allen county, among late completions, was a 50-barrel strike made by Snowden Bros. on the Taber lease.

Some time ago Pennsylvania crude oil advanced and this was followed a day or two ago by an advance in the price of Texas and mid-continent field oils by the Prairie Oil & Gas Co. This last upturn was apparently the signal for an advance in crude oil prices in all of the various fields. It appears that the rise in crude must necessitate a commensurate rise in fine petroleum products. It is not expected, however, that there will be any advance in gasoline for the time being and this may not eventuate until next summer when it is expected that the demand will outstrip anything that has been offered. The automobile industry is increasing capacity daily, which makes for a decided increase in gas demands. Lubricating oils will probably respond almost immediately to the advance in crude, as in addition to domestic consumption there is a heavy export demand.

### Chicago May Get Rev. F. F. Shannon

It seems quite probable now that Rev. F. F. Shannon will accept the pastorate of the Central Church in Chicago. He preached there last Sunday for the second time and will fill the pulpit again next Sunday. Mrs. Shannon is with him in Chicago.

Dr. Günsaulus is preaching in Mr. Shannon's pulpit in Brooklyn during his absence.

On Sunday night Rev. Shannon spoke to 3000 people at the Sunday Evening Club on the subject, "The Things Which Are Not Shaken."

## C. B. BROMLEY SELLS HIS SHOE STOCK

C. B. Bromley sold his stock of shoes Monday to some Pittsburg jobbers who are scouring the country for merchandise. They have shipped the shoes to Pittsburg and will sell them at wholesale. These men made an effort to buy some of the largest stores in town, with the intention of shipping the goods to their house in Pittsburg.

This appears to confirm the persistent reports of the shortage of merchandise and the continued rise in prices that will result from this condition. The strikes and the inefficiency of labor, along with the abnormal demands of the world, are causing an alarming shortage of goods in nearly all lines.

Mr. Bromley will continue his repair business.

## COAL STRIKE NOT YET SETTLED AND SUPPLY IS SHORT

### Big Increase Refused by the Union Leaders and U.S. Now has the Case.

No agreement has been reached with the coal miners. An increase of 30 per cent is not satisfactory to the grasping union leaders and the matter has been passed up to the U. S. Cabinet. This body sat for six hours on the case Tuesday and met again Wednesday. Drastic action in behalf of the public should be taken. The price of coal is already very high and the increase offered the miners will add from 40 to 60 cents per ton.

**Coal Supply Very Short.**  
Washington, Nov. 25.—With less than forty per cent of the normal output of bituminous coal being produced, the nation is facing its most serious period since the strike of soft coal miners was ordered, according to reports received today by the railroad administration.

In scores of cities the number of industries in operation is rapidly falling, while the nation's coal bin continues to diminish.

Officials held out only a ray of hope for increased production, while last week's reports showed an increase over the previous week and indications were that the production of fifty per cent of normal this week.

Officials said they could not expect sufficient production to check the drain on the national supply until all differences between the miners and operators are ironed out by the conference here.

### Household Needs Pressing.

Meanwhile temperatures in the northern half of the nation have dropped and the cry for coal for household purposes grows louder. So far, the supplies have dealt out rather liberally to meet this demand, it was said, but further releases of coal must be limited if the nation is not to face a serious tie-up of industry as well as transportation before normal production is again restored. Non-union districts, while showing some loss in men returning to work, still hold firm, reports show. In some districts, it was said, men have gone back to their jobs in large numbers but in many mining areas the union ties have continued to keep the mines closed.

Rev. H. O. Chambers writes that he has changed his work to Fountain Inn, S. C. Greer was the place to which he was first assigned.

## LAWRENCE COUNTY FARM BUREAU

A number of farmers representing Lawrence county met Saturday, Nov. 22, in County Agent Baker's office and Ralph J. Morgan, district agent for Eastern Kentucky, outlined the plan of organization for a County Farm Bureau and how it has been organized in 36 counties in Kentucky. Also, that the farmers from these counties met in Louisville Saturday, Nov. 8, and formed the Kentucky Farm Bureau Federation. Also, that last week farmers from 33 States met at Chicago to form the American Farm Bureau Federation.

The objects of the National Association are generally, to have a committee of farmers at Washington to represent them on all legislative acts relative to farmers; to conduct cost of production problems and thereby advertise to the city consumers the actual cost of production and prove that it is not the farmer who is profiteering.

The objects of the State Association are: To have a committee of farmers at Frankfort to represent them on all acts brought up relative to farmers, including a bill for the continuation of agricultural extension work in co-operation with the College of Agriculture.

The local County Farm Bureau is based on three principles: Better agriculture, better business methods and better living conditions.

The local farm bureau has an office and community rest room for farmers' wives at the county seat, a thing that has always been neglected in Kentucky.

National market quotations are received several times daily for its members.

An exchange board is kept advertising things to be bought and sold in the county.

A news bulletin is issued every week to its members.

In other words it is a business association for the purpose of running a farmer's business the same as a Chamber of Commerce helps out the city business man.

The farmers present at Louisa were very enthusiastic about working up a Farm Bureau for Lawrence county and resolved to put the plan before the farmers of the county in a series of community meetings and organize by the first of the year so that Lawrence county farmers can affiliate with the State Federation of Farm Bureau at Louisville in January.

Watch out for the meeting in your community and be sure and come and hear all about this great farm organization movement.

JOHN H. MCCLURE,  
Secretary, Lawrence County Farm Bureau.

### REPORTED PROFITEERING.

Some interesting stories are going around about U. S. detectives catching some Ashland merchants for profiteering, but we do not know whether or not they are true. The arrest of a woman who sells ladies apparel in Huntington is denied.

### PIKEVILLE MAN HELD.

United States Commissioner Frank H. Howell, Dayton, Ohio, appeared in behalf of Ray D. Keels, Pikeville Ky., who pleaded guilty to having morphine in his possession. Judge Howell said the boy comes from a prominent Pikeville family and had never partaken of a narcotic until after his entrance into the army. He said the boy had been cured during the two months he had passed in the Dayton jail. Judge Peck said it would be an unkindness to the youth to release him at this time and that he could better cope against the drug habit if he were confined 30 days longer. That was the order of Court, with an assessment for the costs.

DENUDED COAL LANDS  
OF EASTERN KENTUCKY  
WILL BE REFORESTED

Frankfort, Ky.—Reforestation of much of the denuded coal lands of Eastern Kentucky probably will be brought about in the next few years through exigencies of the mining industry.

J. E. Barton, Commissioner of Forestry and Geology, who has been urging the undertaking, announced that mining corporations of Harlan, Laurel and Letcher counties have enlisted in the enterprise.

In Harlan, yellow poplar will be planted, and other species will be used in the other counties.

Several acres of timber are required for one acre of coal operations, and development of the mining industry has added to the havoc wrought by old-time wasteful methods of logging and forest fires before State and Federal departments began fire prevention campaigns.

The result is mine owners have been brought by the department to realize that in the near future there will be a dearth of mining timber.

The State forester will advise with the companies and supervise the work where necessary.

**TUSCOLA**

It is given unto man once to die but after this the judgment.

On Thursday morning while the stars still illuminated the great dome and the moon cast her silver rays over the earth the silver cord was snapped and the soul of Green Smith took its flight to God who gave it. He had passed his 52nd milestone on Life's high road but becoming weary, he lay down by the wayside and fell into that dreamless sleep from which no traveler has ever returned. He was a kind husband, an indulgent father, a good neighbor and a true friend, honest and upright.

A true believer in the Christian religion and a devoted follower of the meek and lowly Nazarene he exhorted men and women to prepare for the judgment. While he provided bountifully for his family he never forgot his duty to his fellowman and to his God. He was active in all the affairs of his community, believed in good schools, good churches and good roads. He was ready to help suppress lawlessness, to reconcile brother to brother, and looked upon tattling as a disgrace to any community.

His funeral was preached by Rev. Rowland Hutchison at the church Friday. He rose to the occasion and wonderfully impressed the large congregation that had assembled to pay the last respects to one they loved.

He was laid to rest in the home burial ground that overlooks the place of his birth. He is gone, but not forgotten. His spirit hovers over the community to guide and direct generations yet unborn.

Of the changeable seasons that come and go.

From opening violets to falling snow, There is not one among them all That is dearer than the fall.

When slanting sunbeams thru southward doors and windows peep, When longer the northward shadows creep.

Tis then the fast receding sun tells us another summer's done.

But still his milder growing rays Brighten the shortening Autumn days.

While daily farther his orbit lies Circling through the southern skies.

By the hazy glow are the woodland's charms enhanced.

Off on their beauty I gaze entranced, When Autumn her gorgeous tapestry weaves.

To deck the host of forest trees.

E'en though he kills the beautiful flowers.

Jack Frost is a good old friend of ours; His coolness and crispness gives to the fall a cheer.

Scarcely felt at other times of year.

**BIG SHOAL**

Mr. and Mrs. Charley Keyser have returned from a week-end visit to their son, who lives at Charlottesville, Va. They report an extremely pleasant visit and are much impressed with the country and people in that vicinity. Mr. Keyser is one of the leading coal operators of the Big Sandy river and has successfully operated a mine here for the past eight years.

Mr. James Hatcher, of the Hatcher Coal Co., here who has been taking treatment at the King's Daughters' Hospital in Ashland for the past thirty days, is so much improved that he is expected home soon. During his absence his coal operation is being successfully managed by A. L. Trimble and J. B. Polley.

The general strike among the union coal miners effective Nov. 1 throughout the country, did not effect these mines along the main line on Big Sandy as they are operated by non-union labor, and hence we do not have the labor trouble to contend with that prevails in the union fields.

A little shooting affray occurred last Saturday in the town of Pikeville between Deputy Sheriff Coleman and Deputy U. S. Marshal Potter, both wounded, neither serious. Full particulars not known at this time by the writer.

Messrs. E. C. Steele and Rush Hunt, two of our business men were guests of a business nature at Pikeville Saturday.

Church conducted Sunday afternoon on the railroad siding by Reys, Hall and Galipolis, a large and attentive audience. After the service, "there's being much water" the rites of baptism were administered to a man and his wife. They were then received into full connection of the Baptist church. The song service during this hour was conducted by A. L. Gilliam and a bunch of songsters from Morgan county, and when we say that these people were regular "Green Valley singers" it is putting it mildly. This is the most complimentary way we can express it. They are simply fine singers.

Mr. Weddington, of Wise county, Va., has moved into our neighborhood, having leased the farm of J. E. Peeler for a period of five years. They are splendid people and we are glad to have them with us.

Since Saturday of last week the nimrods around here have been as thick as fiddlers in—Well, at any rate game is much more scarce now than a week ago.

Our farmers are actively engaged in gathering their corn. Much complaint about the damaged condition in which they find the corn is heard.

A gentle stroll Sunday afternoon to the top of an extremely high point at the headwaters of Big Shoal creek revealed to our view the shining heights of the famous Cumberland with their majestic heads resting as it were in the very lap of the clouds, and as we gazed upon their beauty we wondered if the snow-capped peaks of Hermon or the frozen ridges of Switzerland could present a more beautiful sight. We doubt it very much.

Drs. J. W. Vickers and A. Flannery of Pikeville, were called here by the serious illness of two small children of Everett Wheeler last Saturday. Hope for the recovery of one is extended but nothing encouraging could be expressed for the other.

Lee Justice mysteriously disappeared several days ago, and anxiety as to the cause was very great, but he returned this week with a much better half, having married a young lady over on Johns Creek, much to the surprise of their many friends. Of course he was given the rare treat so common on such occasions by the bell bride, which was at its best and did ample justice to the occasion.

And now, Mr. Editor, we wish to say that we heard your pastor, Bro. Bell, preach when we were in Louisa on the 16th inst., and while we know that Louisa always has the best preacher in the conference we believe you have now one of the best you have had for many moons and the church has only to stand nobly by him to make this one of the most prosperous years in the history of the Louisa Methodist Church South. We noted with great pleasure his compliment to the choir on that occasion and feel quite sure he even then underestimated the ability of your choir.

## GREAT MASS

## OF PROOF

Reports of 50,000 Cases of Kidney Trouble, Some of Them Louisa Cases.

Each of some 6,000 newspapers of the United States is publishing from week to week, names of people in its particular neighborhood, who have used and recommended Doan's Kidney Pills for kidney backache, weak kidneys, bladder troubles and urinary disorders. This mass of proof includes over 50,000 recommendations. Louisa is no exception. Here is one of the Louisa cases.

J. W. Pinson, Lock Ave., says: "My kidneys were weak and I suffered severely. My back ached and sharp cutting pains darted through the small of it. I could hardly straighten after bending over and the kidney secretions were highly colored and irregular in passage. Doan's Kidney Pills cured me of the complaint and I have felt well ever since."

Price 6c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Pinson had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

If you want to play a winner, sure thing—  
put your money on Chesterfield.

In less than three years, more than three million smokers have become Chesterfield fans.

And no wonder! Never were finer tobacco used in any cigarette. The silkiest leaves of aromatic Turkish and the choicest of ripe, sweet Domestic stock are put together by an exclusive blending method that brings out a new deliciousness of flavor.

"Satisfy"? Right down to your toes! Chesterfields have put added enjoyment into every puff—enjoyment that you don't get and can't get in any other cigarette because the Chesterfield blend can't be copied.

## INEZ

Mrs. Peggie Stepp, widow of the late Rev. Elias Stepp, passed away Nov. 7. She was over 80 years of age and has been bed-ridden for the past two or three years. She was the mother of Jim Stepp, of Kermit, W. Va., who is one of the wealthiest men in this section of the county. Several hundred people attended her funeral which was held on Wolf Creek near the old home.

Rev. Stepp, her husband, was well known over the county as a popular preacher of the Baptist church.

A. J. Wilson who holds a responsible position at Chattaroy, W. Va., was visiting home folks during the week end. No long ago he returned from overseas where he saw active service with the 116th Infantry.

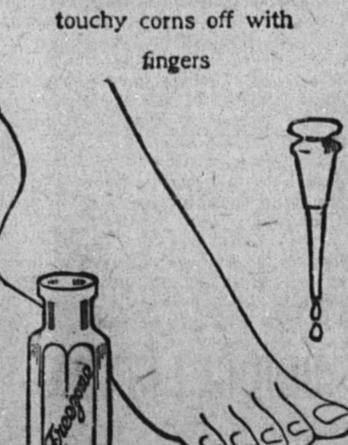

Wm. Pauley is building a new house on the site where his house was burned last spring. He will soon ready it for occupancy.

## FIVE CLAY COUNTY FEUDISTS SENTENCED TO PENITENTIARY

London, Ky.—Five Clay county feudists were sentenced by Circuit Judge William Lewis to terms ranging from two to twenty-one years in the penitentiary for killing Deputy Sheriff James Baker in a battle on Clay Creek last March. The conviction is believed to be the final act in the bloody Farmer-Poe-Baker feud. The sentences follow: John Ferman, 21 years; William Poe, 21 years; Leonard Morgan, 21 years; Felix Ferman, 5 years, and Steveerman, 2 years. Hugh and Robert Baker were sentenced to five years each in May. James Baker, a grandson of George Baker, killed twenty years ago by Jim Howard, of Goebel case fame, invaded the Crane Creek territory with a posse to make arrests for moonshining. The battle followed.

## BLUEFIELD AWARDED NEW BAPTIST SCHOOL

Bluefield, W. Va.—The Baptist general assembly of Virginia voted to locate the new Baptist College for Boys in Bluefield. This city was voted the school after strong competition with six cities of Virginia including Roanoke, Bristol, Marion, Radford, Rocky Gap and Wytheville, each city having offered a large cash bonus and a site. The college will be established at an initial cost of a quarter of a million dollars and is intended by the Baptists to ultimately become one of their largest educational institutions.

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic! A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses without soreness or irritation. Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.

The German opera company that started a series of performances in New York recently is in bankruptcy, thanks to the loyal Americans who refused to permit the insult to continue.

"The high cost of loafing" is the way some one very aptly has described the present situation. If all would go to work the high prices would soon tumble, because production would catch up with demand.

We see a number of young fellows every day loafing on the streets, missing the greatest opportunity they ever had to make money and at the same time help to better conditions in this country. They should be arrested for vagrancy.

Gov.-elect Morrow will appoint George F. Stephens, of Illinois, as his private secretary. The place pays \$2000 per year. Mr. Stephens has been at work in Louisville about a year in connection with the War Savings department.

No Congress ever did less in the same length of time than the one that adjourned last week. The body was in session since last spring and almost nothing was done. The killing of the peace treaty was the worst act the Senate had an opportunity to commit and it did that. The House failed to show the courage necessary to meet the greatest issue before the people today—that of protecting the masses of our country against the Bolshevik acts of organized groups who would stop train service, coal production, and other absolutely essential public service to enforce impossible demands.

Samuel Gompers, president of the American Federation of Labor, exclaimed recently, in regard to the right of "free speech" which anarchists are abusing so shamefully that loyal Americans are in revolt:

"We are free men, and we propose to exercise the freedom of our judgment and our conduct, and to criticize and express ourselves in dissent from the policies pursued, if erroneous.

No man is free. The right to "exercise the freedom of his judgment and conduct" depends entirely upon the viewpoint of the individual. The burglar may contend for this "right." The highwayman would be happy under such a construction of life. The murderer, the libertine, the perjurer, the gambler, the bootlegger, the moonshiner, the Bolshevik, the anarchist—all these are clamoring for "freedom," the kind of freedom that puts no restraint upon their ruinous conduct. Every law on our statute books is an abridgment of "freedom." What loyal American can do away with our laws? Only the anarchist wants the laws wiped out.

The human being that is nearest a free man is he who bows in humble submission to the laws of God; whose heart is right toward his fellow man; whose greatest desire is to do no wrong to any creature, but to be of service to humanity. For him there is not a law on the statute books of the United States that hinders or makes afraid. He is as free as it is possible for a man to be.

VOTE CANVASSED  
BY STATE BOARD

Frankfort, Ky., Nov. 24.—State Board of Election Commissioners canvassed the vote to-day and issued commissions to State officers-elect who received the following pluralities: Edwin P. Morrow, Governor, 40,176; S. Thurston Ballard, Lieutenant Governor, 34,558; Fred A. Vaughan, Secretary of State, 33,589; Chas. L. Dawson, Attorney General, 32,309; John J. Craig, Auditor, 33,954; James A. Wallace, Treasurer, 33,117; George Colvin, State Superintendent, 35,446; W. C. Hanna, Commissioner of Agriculture, 32,544; Roy D. Speck, Clerk of the Court of Appeals, 32,869; Railroad Commissioner, First district, Frank N. Burns, Democrat, 3,559; Second district, J. S. Cooper, Republican, 4,708; Third district, E. C. Kash, 89,967. Mr. Kash had no opposition.

In the Thirty-fifth judicial district, Pike and Letcher counties, Roscoe Vanover, Republican, has 2,419 majority over J. E. Childers, Democrat.

## PANSY.

PREDICTIONS AS  
TO OIL PRODUCTION

New York, November 23.—It is a startling statement attributed to the head of the Department of Mines, Van S. Manning, in which he is reported

to have said that the maximum production of oil in the United States will have been reached by 1922. Mr. Manning goes farther than this, feeling justified in reporting that the maximum world-production of oil will be reached within the next 10 years.

If he is correct in these forecasts a serious situation will confront world industries, for it is recognized that upon the use of oil in its various refined and perfected forms no small part of the industrial development of the civilized world now depends.

Other experts have reported that the life of American oil at the present rate of production and consumption will end in 16 years.

Dr. E. G. Acheson, who has made a careful study of the oil industry in all its features, is persuaded that unless large new fields of oil are discovered and exploited our American oil will have been exhausted within 16 years.

## PAPER MUST BE SAVED.

BIRMINGHAM, Ala.—The Southern Newspaper Publishers' Association, meeting here to consider the white paper problem, agreed that consumption must be curtailed if the smaller newspapers are to survive.

 were in Ashland Friday, having accom-  
 panied Mr. Ramey's mother that  
 far on her way home. She had been  
 their guest a few weeks.

Miss Bertha Ferguson, of Ashland,  
 will spend Thanksgiving at her home in  
 Buchanan. After a few days at home  
 Miss Ferguson will then visit  
 Mrs. I. J. Mark of Cleveland, Ohio.

George Thomas and Patrick Conley,  
 little sons of Dr. G. T. Conley, of Wil-  
 liamson, W. Va., are guests this week  
 of their grandparents, Mr. and Mrs.  
 P. H. Vaughan, while their mother is  
 spending a few days in Cincinnati.

Miss Ethel Vivian Pennington and  
 Alfred Waddell were married in Gray-  
 son. The bride was a Webbville girl  
 and the groom lives at Halcom, Elliott  
 county.

## A Word About the Fresh Meat Business

We feel justified in asking for the patronage of the  
 people of Louisa and vicinity in the Meat line because  
 we conduct the business all the year around. It has  
 been the practice here for many years for one or  
 more persons to engage in the fresh meat business  
 during the more profitable season and drop out when  
 warm weather comes with reduced demand for meat  
 and with the heavy expense for ice, etc.

When the price of cattle dropped recently we  
 reduced the price of meat accordingly. It is our in-  
 tention to treat the public right at all times and to  
 give the best service possible.

We also carry a good line of Groceries and will  
 appreciate your patronage.

#### RED CROSS GIVES FULL ACCOUNTING

War Council Tells How Millions Contributed by Public Were Used For Relief.

#### BIG TASK IS DESCRIBED

In Twenty Months \$154,000,000 Was Spent Overseas and \$119,000,000, in the United States.

Washington. (Special)—Through a complete report of the work of the American Red Cross in the war by Chairman Henry P. Davison, on behalf of the war council, the organization on the eve of its annual enrollment of members during the Third Red Cross Roll Call, November 2 to 11, has rendered an accounting of the many millions given it by the American people to help our fighting men and our allies. The statement is, in part, as follows:

The war council of the American Red Cross is now prepared to make a complete accounting to the American people of money contributed and expended, as well as the work done by the American Red Cross during the period in which the war council was in control of its affairs. The war council was appointed May 19, 1919, and went out of existence February 28, 1919.

"It was the practice of the war council to give complete publicity to its policies and finances, but it is only now that a picture of the war period as a whole can be presented. It is the feeling of the war council that a report in this summarized form should be made directly to the public which provided the money and gave the effort which made the American Red Cross a success.

"A statement of the American Red Cross effort and finances since the war council relinquished its control will be made to the public through the executive committee, and it is important, therefore, that the fact that this report covers the period only until March 1, should be carefully noted."

Following are certain round figures covering American Red Cross participation in the war, as revealed by the war council's report:

#### Some Outstanding Figures.

Contributions received (material and money), \$400,000,000

Red Cross members: Adults, 20,000,000

Red Cross workers: 8,100,000

Relief articles produced by volunteers: 371,577,000

## NEWSPAPER VIEWS ABOUT DEFEAT OF THE PEACE TREATY

BOSTON HERALD—A miserable mess. It would be inaccurate to describe in any more complimentary term than this the situation in which the United States Senate leaves the peace treaty. We should have peace and we should have it by a treaty, and that one negotiated in concert with the nations by whose side we fought. The Constitution of the United States had given the authority in the negotiation of such a treaty to the President, whom the American public in 1916 elected to that office.

PITTSBURGH CHRONICLE TELEGRAPH—"It has been a work of blind, partisan recklessness, done in callous disregard of the need and the suffering of nations and of millions of men who will have to bear their burdens unrelieved until, with the establishment of conditions of peace, works of mercy and upbuilding can be undertaken. It is a fearful responsibility the enemies of the treaty and peace have taken upon themselves."

PHILADELPHIA RECORD—The peace treaty has been assassinated by Republican Senators. The President has expressed a wish that the cadaver should be buried instead of being posed in a standing position, and the pretense made that it is alive, in order to conceal the crime of Henry Cabot Lodge and the gang of which he is the leader.

The Republicans must abandon their position or forever be infamous for having placed the brand of sham upon the nation and perpetuating war upon the earth when all the nations of the civilized world except the United States were willing to enter into compact to prevent war and enforce civilized and humane processes of settling international disputes.

BALTIMORE EVENING SUN—The peace treaty, containing the greatest and most promising effort made by nations in history to bring about peace and human brotherhood on earth, has been assassinated in the United States Senate from motives which, in the main, are of the smallest and most despicable. From personal envy, malice, wounded vanity and for supposed political advantage the majority of the Senate has jugged with the lives and destinies of unborn millions.

MEMPHIS (TENN) COMMERCIAL-APPEAL—Wednesday was a day of triumph for Germany. England and France alone are hardly enough to bring about peace and order in Europe. They cannot protect the young nations which scarcely are able to stand on their feet. Every enemy of law and order throughout the world is glad that the treaty is rejected. Every wretch who, during the war, covered his pro-Germanism under a camouflage of applauding the flag and standing erect when the Star Spangled Banner was played is glad today. Every Anarchist, every I. W. W. and every false labor leader who in German first and American next is glad at what has taken place. Profiteers rejoice, crooked ammunition makers and those who robbed the Government in thieving contracts are glad. The failure to ratify the treaty is a bid for a world chaos. The public of Tennessee should demand the resignation of Senator John K. Shields, and then demand that Governor A. H. Roberts appoint some one to take his place who will vote for the treaty as it was submitted. Voters of all the other states should take similar action.

CLEVELAND PLAIN DEALER—Eliminating consideration the question of responsibility, the fact remains that with the treaty rejected the United States stands confessed before the nations of the world as a quitter. The republic that entered the war professing its disinterestedness and its unselfish wish to help free nations everywhere to gain their freedom, now refuses to accept her share of the responsibility of peace. Either the Senate has blundered in its interpretation of American public sentiment or the public of the United States voiced a colossal hoax when it declared abiding interest in the welfare of liberty.

The treaty has been killed because a group of Republican Senators thought they saw partisan advantage in killing it. Lodge and his colleagues have attempted to make political capital out of a national crisis. The greatest forward

## CONSTIPATION

And Sour Stomach Caused This Lady Much Suffering. Black-Draught Relieved.

Meadorsville, Ky.—Mrs. Pearl Patnick, of this place, writes: "I was very constipated. I had sour stomach and was so uncomfortable. I went to the doctor. He gave me some pills. They weakened me and seemed to tear up my digestion. They would grip me and afterwards it seemed I was more constipated than before."

I heard of Black-Draught and decided to try it. I found it just what I needed. It was an easy laxative, and not bad to swallow. My digestion soon improved. I got well of the sour stomach, my bowels soon seemed normal, no more griping, and I would take a dose now and then, and was in good shape.

I cannot say too much for Black-Draught for it is the finest laxative one can use."

Thedford's Black-Draught has for many years been found of great value in the treatment of stomach, liver and bowel troubles. Easy to take, gentle and reliable in its action, leaving no bad after-effects, it has won the praise of thousands of people who have used it.

## "Gets-It" Peels Your Corns Right Off

Two Drops Will Do It Without Fuss or Trouble. Never Fails.

There's only one way to get rid of a corn, and that is to peel it off as you would a banana skin. There is only one corn remover in all the world that does it that way, and that

There's No Corn "Gets-It" Will Not Get.

"Gets-It" It is because of this fact that "Gets-It" is today the biggest seller among corn-removers on the market. It removes even the "corn-fiddling." For hard corns, soft corns, very old corns, young corns, corns between the toes and calluses, it means a quick, certain removal. "Gets-It" is applied in 2 or 3 seconds. All you need is 2 or 3 drops. As easy to do as signing your name. It does away forever with tape, plasters, bandages, knives, needles, scissors, files and blood-bringing poultices. Ease your corn-pains, be corn-free at last.

"Gets-It," the only sure, guaranteed, money-back, corn-remover, costs but a trifle at any drug store. M'd by E. Lawrence & Co., Chicago, Ill.

Sold in Louisia and recommended as the world's best corn remedy by Louisia Drug Co.

step for the welfare of nations has been subordinated to party ends.

ST. LOUIS POST-DISPATCH—If the peace treaty is not dead, as Senator Henry C. Lodge declared it to be, peace is postponed indefinitely. In either event the conclusion of the Senate's work on the peace treaty is a deadly blow to civilization and the ends for which the great war was fought to a finish at enormous cost of blood and treasure.

The disgrace of the Senate's important conclusion is that this great epochal measure dealing with the vital welfare of mankind and providing for the rebuilding of the world on a new and sound basis was defeated by a technicality because of personal vanity and resentment, malice and selfish partisanship. The treaty was not considered on its merits.

ST. LOUIS STAR—Yesterday easily may go down in history as the most shameful day in the history of the United States. There have been blunders more momentous in their effect upon the country, decisions made more blindly, but they have sprung from honest error. For pettiness of spirit, the inglorious rule of mean and sordid motives, for subordination of a solemn duty to picayunish personal rancor, there is nothing in the record of Congress to compare with the final action of the Senate upon the treaty of peace. At all events, the prestige of the United States as a world leader has vanished. The Senate has given to us the role of chief international cynic. We can regain our lost position if the public emphatically repudiates the Senate and forces it to action.

INDIANAPOLIS NEWS—The treaty is dead in this Senate, and they killed it, as I told them they would if they voted against it," declared Senator Henry C. Lodge last night when the Senator had adjourned after the ratification vote had failed. He made the declaration with no expression of regret, and, if his mental attitude can be interpreted by his reported interview, he made it with a good deal of satisfaction that will not be shared by the country.

The news of the treaty's failure comes as a shocking disappointment, slightly tempered by the faint hope that the treaty is not so dead as Senator Lodge declares.

About the only thing that can be said about the action of the Senate yesterday is that it was a great day for "Reds," radicals and Bolsheviks, and for all the insurgent hordes that is attempting to remake the world along impossible lines.

INDIANAPOLIS STAR—The failure of the Senate, after six months of bickering and jockeying, to ratify the peace treaty and League of Nations covenant is a grievous disappointment to the public of this country. The public is sorry that the ratification of peace has been delayed and the adoption of the League postponed, for neither of them has been killed. Above all, it is not proud of the quality of statesmanship displayed in the handling of one of the most important questions this nation has been called upon to consider. The voters are disgusted, but not discouraged, and should make no effort to conceal their sentiments when their Senators return for the recess.

### THERE WAS A MAN.

The merchant who can't find anything in his store to advertise is usually the same fellow who spends his time standing in the doorway watching the crowd go by.

There was a man who fancied that by driving good and fast He'd get his car across the track before the train came past; He'd miss the engine by an inch and make the train hands sore.

There was a man who fancied this—there isn't any more.

Yours respectfully, J. C. COLLINS.

Paola, Kansas.

## MAKE IT DRASIC, BUT LAWFUL

General Pershing voices the sentiment of the entire loyal population of this country when he cries out for immediate and drastic lawful action against all elements making for anarchy in this country. The murder of four World War veterans parading in uniform on Armistice Day by self-confessed International Workers of the World is the last straw. Destroy the traitorous vipers root and branch! Into the prisons, out of the country or the world with them! They must not longer be permitted to nest and breed in the free land of America.

In the recent raids throughout the country the Government has discovered and confiscated tons and tons of anarchist literature, propaganda in which murder and arson are urged, the overthrow of the Government counseled, mercy abjured and religion rejected.

If the red flag is not boldly waving here as it is waving over Petrograd, Moscow, Kronstadt and Kiev, may another city and village in Baltic provinces, and as it already is waving in the streets of Rome, Naples, Genoa, Milan and other Italian cities, and even in some departments of France, it is only because "the time is not ripe" in the judgment of revolutionists. Let the duly constituted authorities see to it that the seeds of revolt already planted not be left to germinate. Let them at once make certain that there can be no ripening of anarchist looting and license in this American land.

General Pershing's outcry expresses the limit of the outraged tolerance of the American people. The Government should destroy the vipers we have warmed at our hearth.—Cincinnati Enquirer.

### THOUGHTS ON THANKSGIVING.

The following is from J. C. Collins, who was a volunteer soldier of Company G, 14 Kentucky Infantry 1861-65. He recently visited Kentucky friends:

As we approach the time, Nov. 27, 1919, set apart by the proclamation of the President of the United States, as well as by the Governor of our State, to assemble at our homes, and our usual places of worship, to give thanks to Almighty God for the many blessings bestowed upon us during the year that is gone, I am led to meditate in my own past experience, and of the lessons to be gleaned therefrom.

How well do I remember, as a soldier in war, when we met in camp life to thank Divine Providence for the preservation of our lives, and for victories won in the preservation of our country and our flag. And well do I remember the conditions in our camp at the beautiful little city of Richmond, Madison county, Ky., on Thanksgiving day, 1862. The 115th Illinois Regiment was in our brigade. The Colonel's name was Jesse H. Moore. He was a minister of the Gospel, and preached a strong and patriotic sermon on that occasion both to citizens and soldiers. His sermon made a lasting impression on at least a part of his audience. I have often thought of Colonel Moore since that time and how that day was observed. He was a patriotic soldier, a strong and forceful speaker, and a truly good man.

I am again reminded of having read in history something like the following: "Enter into the gates with thanksgiving, and into His courts with praise."

At the close of the Revolutionary war, when the thirteen colonies were wrested from Great Britain, King George, of England, proclaimed a day of rejoicing, because of the return of peace. His chaplain said to him: "For what would your Majesty have us give thanks—for the fact that you have lost the best country of your crown?" "No!" said the King, "not for that." "Because thousands of your people have been destroyed?" "No!" said the King, "not for that." "Because you have overwhelmingly increased our national debt?" "No!" said the King, "not for that." "Why, then and for what?" insisted the chaplain. "Thank God," thundered the king, "Thank God because matters are not worse!"

As I sit by my fireside, and take a retrospective and panoramic view of the past—of the years that are gone to return no more—and of the varied impressions that time has made; while many unpleasant incidents and recollections come to mind, yet as a whole we can only view the scene with pleasure and satisfaction, and note with thanksgiving the gradual, but steady improvement of conditions in general in later years, over what they were in years gone by. These to my mind, are things for which a God-fearing people should be truly thankful.

And just in this connection I think of a prayer which is appropriate at this time:

"Our God and our Father, we bless Thee for the bright skies above us; for the firm earth beneath us; for the pure homes that love us; for the many smiles that greet us; for the best government on the round earth; for the strong arms and brave hearts that would defend it; for the miracles of faith, hope and love; for the heaven that is above us, and the good that we can do. Make us worthy of these; and the innumerable blessings which are showered down upon our pathway, day by day, for Thine is the kingdom, and the power and the glory, forever. Amen."

Wishing you one and all a happy Thanksgiving, I am,

Yours respectfully,

J. C. COLLINS.

Paola, Kansas.

### THANKSGIVING

Thanksgiving day should be universally observed. Not since the landing of our Pilgrim Fathers have we had so much to be thankful for. Other years we have given thanks for universal prosperity and bountiful crops. This year we can multiply our thanks many times for the fact that the greatest war in the history of the world is ended and ended right. Instead of reading daily a long list of our brightest and best young men who have sacrificed their lives for the cause of freedom and humanity, we have read lists of those returning to their homes and firesides after having been discharged from duties upon the battlefield of foreign lands in a manner to make every true American rejoice and give thanks. Verily, we should make Thanksgiving Day, 1919, a day long to be remembered.

It is said that to spoil a cow, yell at her and pound her with the milking stool; and the way to spoil a wife is to frown and scowl at her and never give her a cent of money.

We have seen signs that indicate that gambling of various kinds is getting a foothold in the community. Notice the effect of this crime upon domestic happiness. It has sent its ruthless plowshare through hundreds of families, until the wife sat in rags, and

## They Win You On Quality!

Your enjoyment of Camels will be very great because their refreshing flavor and fragrance and mellowess is so enticingly different. You never tasted such a cigarette! Bite is eliminated and there is a cheerful absence of any unpleasant cigarette odor!

Camels are made of an expert blend of choice Turkish and choice Domestic tobaccos and are smooth and mild, but have that desirable full-body and certainly hand out satisfaction in generous measure. You will prefer this Camel blend to either kind of tobacco smoked straight!

Give Camels the stiffest tryout, then compare them with any cigarette in the world at any price for quality, flavor, satisfaction. No matter how liberally you smoke Camels they will not tire your taste!

## HOME CIRCLE COLUMN

### HOME

The prince rides up to the palace gates And his eyes with tears are dim For he thinks of the beggar maiden sweet

Who may never wed with him.

For home is where the heart is, In dwelling great or small, And there's many a splendid palace That's never a home at all.

The yoeman comes to his little cot With a song when the day is done, For his dearie is standing in the door And his children to meet him run.

For home is where the heart is, In a dwelling great or small, And a cottage lighted by lovelight Is the dearest home of all.

THE NEWSPAPERS.

The newspaper is today the most potent element in civilization. Its audience is practically unlimited. It reaches every class of people. It penetrates to every hut and hovel on the farthest confines of human society. The schools have an influence and gather the children of the high and low. But after schools are outgrown, teachers forgotten, and books mouldy and dusty, the newspaper is still a constant companion.

No public speaker, be he preacher or political orator, can draw an audience of one-tenth that which greets the average newspaper of today and thus the tone of the press becomes a matter of vital importance to the welfare of the community.

The influence is widespread and is also lasting. Therefore we say, study well the contents of the paper you are taking and if it contains that which tends to lower the scale of morality and humanity and not to the elevation of that which is good and right, better off are you by far without it.

### THANKSGIVING

Thanksgiving day should be universally observed. Not since the landing of our Pilgrim Fathers have we had so much to be thankful for. Other years we have given thanks for universal prosperity and bountiful crops. This year we can multiply our thanks many times for the fact that the greatest war in the history of the world is ended and ended right. Instead of reading

the daughters were disgraced, and the sons grew to the same infamous practices or took a short cut to the destruction across the murderer's scaffold. Home has lost all charms for the gambler. How tame are the children's caresses and a wife's devotion to the gambler! How drearily the fire burns on the domestic hearth! There must be louder laughter, and something to win and something to lose, an excitement to drive the heart faster and fill the blood and fire the imagination. No home however bright, can keep back the gambler. The sweet call of love bounds back from his iron soul, and all endearments are consumed in the flame of his passion.

Nowhere is a woman's character more clearly shown, or her talents given more scope for cultivation than in home making and in no sphere is the true woman more content and happier than in housekeeping. Home is indeed the "dearest place" on earth when rightly made, and the memory of which remains with us until death, and will do more to protect and restrain its inmates than the grandest and most eloquent sermons from the most gifted ministers and orators. In short, home is the kindergarten of all Christian work and influence the starting point of all beautiful thoughts and deeds.

There never was a greater humbug uttered than the old adage, "The hand that rocks the cradle rules the world." True, it has a very soothing palliation to a man's troubled brain as he puts his cigar in his mouth, puts on his hat and goes out to spend the evening with a club of the same grade of social purity as himself, leaving his wife alone to the momentous task of teaching her young sons that they must avoid the gatherings of the wicked; that home is a safe place for them; that cigarettes are a moral and bodily poison; in short, that they must respect their father but not follow his example.

### OCTOBER EXPORTS SHOW BIG GAIN

Washington.—American exports in October, 1919, were valued at \$63,000,000, an increase of \$25,000,000 over those in September and of \$130,000,000 over those in October a year ago, according to a statement by the Bureau

## AROUND THE WORLD WITH THE AMERICAN RED CROSS.

Junior Red Cross.

Early in the participation of the United States in the world war, the American Red Cross perceived the value of mobilizing the school children of the country and the Junior Red Cross was organized. Before the war ended nine million children were enrolled and helped in the war fund and membership campaigns, in chapter production of relief supplies and manufacturing furniture for the refugees whose homes and household goods were destroyed.

Children everywhere in the United States responded to the call to serve sounded by President Wilson as head of the American Red Cross. This photograph is that of an enthusiastic young Japanese member of the Junior Red Cross of Spokane Wash., starting out on the ambitious undertaking of collecting "a mile of pennies" for war relief. A comprehensive peace program is now being worked out for the Junior Red Cross which is being held intact.

Upon this day came 150 and more legal voters and freeholders and residents of Lawrence county, Ky., and filed with the Judge of the Lawrence County
